

REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Jan. 26.—The record of the day on the Stock Exchange was a repetition of yesterday in inertia, but prices went down instead of up, as was the case yesterday. The retirement of the British from Spion Kop had as little influence as did the previous day's news of the success there. Opening prices showed sharp declines, international stocks being quoted at about the London parity. The weakness in London induced no selling here, however, and the local traders were disposed to buy the stocks offered for London account in the same way that they sold yesterday to meet the London demand. No attempt was apparent to bid up prices, as the local dealers seemed content to take the offerings at the London level of prices. The sales for London account were estimated at something over 20,000, very evenly distributed among the various international stocks. This constituted the bulk of the day's business in railroad stocks, and prices in that department never got far from the opening level. Much the greater portion of the day's small business was in the speculative Industrials and specialties. These were weak from the start. The weakness in Sugar was attributed to operations by a speculative clique. Metropolitan made a momentary show of firmness on belief in a hitch in the closing of the contract for the Rapid Transit tunnel. The Rubber stocks, which have not been active recently, were forced down 4 and 3 points respectively, but recovered two points each. On the curb New Amsterdam Gas was rather active and strong, and Standard Oil advanced to a new high level. Returns by the leading banks of the currency movement for the week indicate that the new receipts for the interior by express have been but slightly less than last week, but the gains on sub-treasury operations were little more than half those of last week, owing to diminished pension disbursements and continued heavy revenue receipts. The total gain in cash for the banks is estimated at near \$7,000,000. It is evident that stock exchange operations have made no demands on loan accounts of the banks. But the placing of time loans and the buying of mercantile paper may have further expanded loan accounts.

The sale of New York city bonds during the week may also be reflected in loan account.

The bond market made further progress towards dullness, and the tone was rather easier. Total sales, par value, \$1,605,000.

U. S. old 4's and 5's coupon advanced 1/2 in the bid price.

The total sales of stocks to-day were \$233,300 shares.

New York, Jan. 26.—Standard Oil, 6.17 to 6.20.

The Cotton Markets.

New York, Jan. 26.—The news from South Africa caused both sides in the cotton market to pause and carefully consider this new phase in the situation. Speculation for this reason was extremely dull, except for a period of activity around the opening. Prices at no time departed from the closing level of yesterday. But while fluctuations were narrow and business tame, there were many reasons for believing that the local contingent was bullish. The market opened steady with prices 2 to 4 points lower, the latter being a sympathetic move with weakness in Liverpool rather than the result of special bear exertion or waning faith on the part of the bull forces. The market at once regained the loss sustained on the call and even scored a slight net advance on heavy purchases for Liverpool and Wall Street, after which business tapered off to a local scalping trade. Prices gradually settled back to a shade below last night's close and then remained unchanged until near the close, when a slight upturn followed renewed covering.

The market closed steady, with prices 3 points higher to 1 point lower.
